

## Features & Benefits

- Single Phase Universal AC input
- Rugged Unit for Military Applications
- High Efficiency, High Power Density
- Wide Input Voltage Range
- Built-in Active PFC Function
- Charger for Lead-Acid Batteries (Flooded, GEL and AGM) and Li-Ion Batteries (Lithium Iron and Lithium Manganese)
- Internal OR-ing Diode
- Multiple Units in a Redundant or Parallel System
- IP67 Sealed
- Input Under Voltage Protection
- Input/Output Over Voltage Protection
- Short Circuit Protection
- Over Temperature Protection
- Reverse Battery Protection
- Two unit can be mounted in 2U height 19" Rack
- On/Off Switch
- LED Indicators
- Grounding Interface

## Compliance

Module is designed to meet:

- MIL-STD-461G
- MIL-STD-810G
- MIL-STD-1275E

## Typical Applications

- Military/Defense Power Systems
- Armored Vehicles
- Land Platforms
- Communications and Radar Systems

### Product Ratings

|                |  |
|----------------|--|
| $V_{IN}$       | 90–265 V <sub>RMS</sub> (single phase) |
| $V_{IN\_NOM}$  | 220 V <sub>RMS</sub>                   |
| $V_{OUT}$      | 28.2 V <sub>DC</sub>                   |
| $I_{OUT\_MAX}$ | 120 A <sub>DC</sub>                    |
| $P_{OUT\_MAX}$ | 3384 W                                 |

## Product Description

KMBC07 is a high efficiency AC-DC battery charger unit. The unit regulates a constant current at the output. Charger unit is designed to guarantee high performance under extreme environmental conditions. It has superior protection features against external faults and disturbances while meeting the major military standards. KOLT's innovative engineering has enabled a compact design of the converter with high power density and performance.

Size: 530 x 220.75 x 87.75 mm  
**(19"/2 form factor, 2U height)**

Weight: 15 kg

## Electrical Characteristics

| Input Characteristics              |  |     |     |     |                   |
|------------------------------------|--|-----|-----|-----|-------------------|
| Parameters                         | Comments   | Min | Typ | Max | Unit              |
| <b>Input Voltage</b>               |  | 90  | 220 | 265 | V <sub>RMS</sub>  |
| <b>Input Voltage (non-working)</b> | Withstanding input voltage                         | -   | -   | 300 | V <sub>RMS</sub>  |
| <b>Input Frequency</b>             |  | 47  | 50  | 63  | Hz                |
| <b>Input Current THD</b>           | From half load to full load, nominal input voltage | -   | -   | 10% | -                 |
| <b>Input No Load Power</b>         | Nominal input voltage                              | -   | -   | 50  | W                 |
| <b>Inrush Current</b>              | Nominal input voltage                              | -   | -   | ±40 | A <sub>PK</sub>   |
| <b>Leakage Current to Ground</b>   | 10% load, nominal input voltage                    | -   | -   | 5   | mA <sub>RMS</sub> |

| Output Characteristics         |   |     |      |      |                    |
|--------------------------------|---|-----|------|------|--------------------|
| Parameters                     | Comments  | Min | Typ  | Max  | Unit               |
| <b>Output Voltage</b>          |   | -   | 28.2 | -    | V <sub>DC</sub>    |
